

Series C Fuel Tanks

Manufactured from High Density Polyethylene (Eltex) in Italy. These tanks are red in colour and come complete with inspection cover, filler cap with vent and an 8mm fitting to suit flexible tubing. A pickup pipe for fuel feed is already attached. A fuel return to suit copper or flexible pipe may also be fitted. There is provision to fit a sender unit (S3-20 to S3-40) suitable for use with gauge IPFR. For filling tanks remotely from a deck filler the inlet connector kit will be required.
