

DIGITAL GAUGES

Profile Legacy 8 Tank Display

This panel autonomously monitors from 1 to 8 separate fluid tanks and warns the owner when something is too high or too low via a red warning light which stays lit and an alarm chime which sounds periodically.

In the multi-tank view (default), all attached tanks are displayed at once as 12 position vertical bar graphs.

In the detailed or single tank view, each tank level is displayed as a horizontal 24 position bar graph.

In the detailed view the tank channel number, name, and alert status are also displayed.

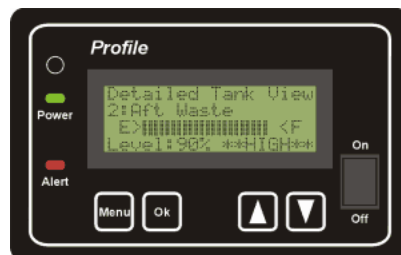

Compatible with the following senders:

- Tek-Tanks Capacitive senders
- Tek-Tanks W2 Water and S3 Fuel **US specification** senders
- Some VDO Capacitive type senders

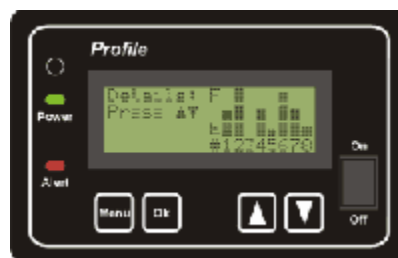

Overall panel dimensions:

Width: 150mm (6.00")
 Height: 96mm (3.8")
 Depth: 35mm (1.25")

Profile Legacy 8 Tank Display Ref: 9000

LEGACY 8 TANK DISPLAY

Profile Solo Tank Displays

The Profile Solo displays will monitor a single tank and are suitable for water, waste and fuel.

There are two versions of this display.

One has an alarm when the tank is full and other has an alarm when the tank is empty.

The full (Solo F) unit is for use with waste and grey water tanks
 And empty (Solo E) unit is suitable for water and fuel.

Compatible with the same senders as the Legacy.

Overall panel dimensions:

Width: 87.5mm (3.5")
 Height: 50mm (2.0")

Profile Solo Full with alarm Ref: 9001

Profile Solo Empty with alarm Ref: 9002

SOLO E - SOLO F
