## Wema SHS Range

New type stainless steel senders (240-30Ω). Sender set includes fitting flange and analogue gauge. Suitable for 12 or 24V. Pierced tube design prevents solids coming in contact with float inside. Tube is easily removed for cleaning purposes.

Stock held:  
21,31,41cm                      Ref: SHS

**WEMA SHS**

## Wema WHT Range

New type ABS waste tank sender and LED gauge. Screws into an 1 1/4" BSP fitting flange for quick and easy removal. Suitable for either 12 or 24V.

Stock held:  
16, 22, 32, 42 cm                      Ref: WHT

3 level LED gauge                      Ref: ISS  
6m connection cable                      Ref: PK-6  
Fitting flange                      Ref: FL-2 (for VDO replacement senders)  
Fitting flange                      Ref: FL-3 (for new tanks)

**WEMA WHT**

## Domestic

Reliable micro float switches indicate empty, low, mid and full. Always one - and only one - light on, so there's never any confusion about the level of the tank. No electrical components come in contact with waste or water - no false readings from fouled probes and no messy probes to clean! Operates on 12 or 24V DC.

Easy to install on any size fresh, grey or black water tank. Available with either 22 inch or 45 inch adjustable probes.

Includes probe cap with three micro float switches, indicator panel, gasket and stainless steel mounting hardware. Use optional Universal Flange Kit to install on existing rigid tanks.

22" Domestic Tank Monitor                      Ref: 604002  
Universal fitting flange                      Ref: 01670
