

## Quotation Request Form

These tank shapes are the most commonly used in boats. All dimensions indicated are important and necessary in order to prepare a quotation for manufacture.

It is usual for the top of the tank to be horizontal and at right angles to the vertical bulkhead. If your requirement is different, please indicate this

If your required shape is not shown, please sketch it clearly on a plain sheet of paper and attach it to this form when returning.

Please clearly indicate the following:-

- Size and position of any fittings.(If outlet/s is on top, show dip tube/s)
- Direction of elbows (if any).
- Size and position of any inspection hatches.

Please use separate sheet for other shapes or to redraw tanks larger.
