

EZISEAL DATA SHEET

EZI Seals are a range of fittings for plastic and metal tanks. EZI Seal fittings are designed to be used in a wide variety of applications including: agriculture, automotive, marine, welfare, garden and many more.

The EZI Seal fitting can be installed through the tank wall directly from the outside of the tank, and does not need welding or the use of any sealants. EZI Seals will withstand a pressure of up to 4 bar on a flat surface or with a minimum internal radius of 500mm.

Tek Tanks only stock EZI Seals that are suitable for drinking water and waste water. EZI Seals are however available to suit oils, diesel and petrol if required. Please ask for more details.

WALL THICKNESS

EZI Seal	1/2"	3/4"	1"	1 1/4"	1 1/2"	2"
Min	2	2	2	4	4	4
Max	8	9	10	12	12	12

HOLE DIAMETER

EZI Seal	1/2"	3/4"	1"	1 1/4"	1 1/2"	2"
Hole Size	29	35	43	52	59	70

DIP PIPE DIAMETERS

EZI Seal	1/2"	3/4"	1"	1 1/4"	1 1/2"	2"
Dip Pipe	X	25mm	X	X	50mm	X

EZI Seals shown in Red are only available as a special order.

TEK TANKS PLASTIC HOSETAILS

EZI Seal	3/4"	1"	1 1/2"	2"
Hosetail Size (mm)	13,16,19 25	25	38	50

Both straight and elbow hosetails will fit.

The Tek Tanks plastic hosetails will screw directly onto EZI Seal fittings allowing total flexibility when fitting out your tank.
